Malathion. June: 85
Netilmicin sulfate. Oct: 113
Niclosamide. Apr: 136
Nitroglycerin. July: 76
Pindolol. June: 85
Praziquantel. July: 76
Ranitidine. Dec: 86
Streptokinase. Jan: 140
Streptozocin. Mar: 132
Triazolam. July: 76

DRUGS, OTC

The changing nature of OTCs: why—and how—to keep up to date. Sept: 73
A fresh look at OTC drug interactions: effects you can't afford to overlook. Sept: 77
Nurses' unparalleled impact on the use of OTC products. Sept: 69

DRUGS, THERAPY

Diabetes today. Insuring a safe pregnancy for your diabetic patient. Feb: 50
Diabetes today. The new insulin pumps: tight control—at a price. May: 52
Diabetes today. When diabetes complicates your pre- and post-op care. Jan: 42
Intracoronary streptokinase: Direct attack on acute MI. Dec: 26
Let's take care of patients—not medications. July: 46
New drugs of the year: a host of breakthroughs. Apr: 63
New drugs of the year, Part 2. May: 69
New, last-ditch therapy for malignant cerebral hypertension. Apr: 53
PJC and junctional tachycardia. (IR) Dec: 86
PRN analgesics: Controlling the pain or controlling the patient? Mar: 67
"Relatively" painless wound debridement. Oct: 39
7 myths about pain relief. Dec: 30
Tenacious headaches: how to break their grip. Is it just a headache—or a warning? Oct: 29
Tenacious headaches: how to break their grip. You can help the migraine patient. Oct: 33
What to expect from the most common analgesics. May: 44

EMERGENCY NURSING

Autotransfusion: Now it's saving lives in the ED. Dec: 50
Living death: Don't let hypothermia fool you into a fatal mistake. Jan: 48
Dx detective. Two patients, one lethal complication. Sept: 51
Emergency! When intubation is up to you. Oct: 49
New, last-ditch therapy for malignant cerebral hypertension. Apr: 53
Pulling your patient through an adrenal crisis. Oct: 36
Renal trauma: a challenging assessment, a cause for cautious care. Feb: 58
The riddle of abdominal trauma: how much damage... and where? Mar: 42
Spotting Reye's Syndrome while there's still time. Dec: 38

GASTROINTESTINAL SYSTEM

The dysphagic patient: Everyday care counts. Nov: 38
An expert's guide to tubes and drains. Apr: 35
A helpful new handout for your ostomy patients. Aug: 34
How to give your portal hypertension patient a fighting chance. July: 31
The riddle of abdominal trauma: how much damage... and where? Mar: 42

GENITOURINARY SYSTEM

Anatomy self-test: the kidneys. July: 55
Circumcision: needless risks, no medical benefits. Jan: 99
The fine art of giving a physical. Part 16: Assessing the genitalia. Jan: 52
Helping your patient through her hysterectomy. Sept: 42
Making male catheterization easier for both of you. Dec: 43
Renal trauma: a challenging assessment, a cause for cautious care. Feb: 58

GERIATRIC NURSING

Is it really senility—or just depression? Nov: 49
Is your patient a secret victim? July: 20
When it's wrong to orient your patients. Dec: 55

INFECTIONS

A.I.D.S.: Could you be at risk? Feb: 67
Herpes: the shock, the stigma, the ways you can ease the emotional pain. May: 47
Plague: alive, deadly, and easily misdiagnosed. Aug: 45
Spotting Reye's Syndrome while there's still time. Dec: 38
What to do about flu. Jan: 60

INTRAVENOUS THERAPY

A new closed system for arterial lines. June: 49
Autotransfusion: Now it's saving lives in the ED. Dec: 50

RN's

St. Peter Hospital in Olympia, Washington is a 239 bed acute care hospital with 24 hour regional trauma center, certified cancer program and many other special services. We are a five-county referral facility offering top quality medical services to our community, and can thank our nursing staff for much of our success.

Critical Care Internship Program

In March, St. Peter will offer an eight week Critical Care Internship Program for Registered Nurses, coordinated by a Master's prepared Critical Care educator. The objective of this CEU approved program is to prepare qualified RN's to assume patient care responsibilities in the Critical Care areas through a structured classroom/practicum internship program.

In detail, this program will cover Basic Cardiovascular Nursing, Basic Critical Care Nursing, Physical Assessment Class, Leadership Class and Patient Education Class.

To qualify for this program, you must be an RN with at least nine months of recent acute care experience, and be willing to commit to one year of employment at St. Peter after completion of the program.

To find out more about this opportunity with St. Peter Hospital, offering salary commensurate with your experience, and an excellent benefits package, including a Clinical Ladder program for professional advancement, please submit your resume with professional goal statement to:

**Nurse Recruiter, Personnel Department
ST. PETER HOSPITAL**

413 N. Lilly Road • Olympia, WA 98504 • (206) 456-7447

Deadline for application
is January 10, 1984. Orientation begins March 12, 1984. We are an equal opportunity employer.

Interested? Circle 81 on the Information Card.

**SHE
HAS
GOOD
REASON
TO
SMILE**

As a professional, you probably frown at uncertain work schedules. It's hard on your personal life. At University Hospital we've changed all that. Now you can work 40 hours a week with every weekend off, or 24 hours a weekend and get paid for 40. In addition as a CCU, ICU, Neuro ICU, or Open Heart Recovery Nurse, you can work four eight hour shifts and also get paid for 40 hours. All of our options carry full-time benefits packages.

And there's more to smile about at University Hospital. August offers a comfortable lifestyle with proximity to major cities, beaches, skiing, and mountains. It's all here.

Call collect or write today and soon you'll be smiling a lot more.

Mary Ann Mitchell, Nurse Recruitment

University Hospital

THE GREENING OF YOUR CAREER.

Our fresh mountain air and Virginia sunshine couldn't hurt. But the real health plus for you and your career is the environment at the University of Virginia Medical Center itself.

For professional stimulation, you couldn't do better than our progressive teaching and research hospital.

Nor are you likely to find a more liberal, self-deterministic, nursing policy. Emphasizing individual research; continuing education with tuition reimbursement and clinical and administrative ladder for professional growth.)

We don't know a better place to fulfill yourself culturally, intellectually and socially than on the grounds of the world renowned University of Virginia.

And with all this, you're just a ski jump away from the Wintergreen resort and a short drive from Washington, D.C., Williamsburg and the beaches of Maryland and Virginia.

Call our Coordinator for Nurse Recruitment collect at (804) 924-2421 or send the coupon.

Stats: A 900 bed hospital with 40 specialty units, including a Children's Rehabilitation Center, Adult Rehabilitation Unit, a Burn Center, Coronary Care (with a mobile CCU), Neonatal ICU (a regional transport center), Surgical ICU and Medical ICU and large outpatient department with more than 40 specialty clinics.

An nursing environment that's good for your health.

"You are going to laugh, and you are going to cry with this person... you are going to know the total person. It's not just another diagnosis."

At Beth Israel, professional nurses are exactly that: professionals who give the kind of personal care they know should be provided. You'll be the primary nurse making decisions about the nursing needs of your patient.

You'll be responsible. You'll be accountable. And you'll get all the help you need, including continuing education, nursing seminars, and a close working relationship with your colleagues.

Want more? How about nursing grand rounds and CEU's to start. And tuition assistance if you want to continue your formal education outside. Plus an excellent salary/benefits package, including comprehensive health insurance, liberal vacation and personal time-off allowances, and a tax-deferred annuity savings plan.

For more information on the immediate opportunities in Primary Nursing Care at Beth Israel Hospital, call 617-735-3187 during regular business hours. Or, send your resume to Nurse Recruiter, Division of Human Resources.

Where primary nursing can be your primary concern.

FOCUS ON DELIGHTFUL!

Focus on warm sunshine, gentle bay breezes, days spent sailing, and on the golden, healthy glow you'll feel as you enjoy life in South Florida.

Bring this irresistible picture into sharp focus by continuing your professional nursing career at our 700-bed teaching hospital, located on beautiful Biscayne Bay, and affiliated with the University of Miami School of Medicine and the major nursing schools in our area. We'll give you an individualized orientation, low-cost housing adjacent to the hospital (complete with swimming pool), free CEU's, a physical fitness program and more.

Focus on a future that looks like this. Call Rosanne Sonshine, RN or Linda Legal, RN, collect at (305) 674-2395 within the continental U.S.A. Or write to Nurse Recruitment for more details.
